ABRUZZI RYE

There has been very little Rye grown for seed purposes in this section for the past few years. We grew only enough for our own use the past year. We know of a few good, small lots held by the producers, which we might get for you. Write us if interested.

COKER-100 WILT RESISTANT

Every Farmer knows the COKER-100 WILT RESISTANT COTTON. It has won more five-acre contests and led in more Variety Tests than any other cotton in existence. It has done this all over the South.

It is a Wilt resistant cotton but is just as desirable on lands that are not infested with Wilt.

The PLANT TYPE of this Cotton is erect, a vigorous grower, with medium sized, deeply lobed leaves, which means LIGHT FOLIAGE. It is a VERY EARLY Cotton. Bolls are round and slightly pointed, and they OPEN WIDE and Fluffy so that it is a very desirable and easy cotton to pick. Its staple length runs from 1 1/32" full to 1 1/16" under good conditions. Lint percentage runs 37% to 39%. The staple character is uniform, strong, and of excellent spinning quality.

THIS COTTON HAS PROVEN DESIRABLE FOR MECHANICAL HARVESTING.

We are offering 3 STRAINS of this Cotton for the 1950 Planting Season. Our Seed of these Strains obtained DIRECT FROM THE BREEDERS in the Spring of 1947-1948 and 1949 respectively and have been grown entirely under our supervision, ginned on our own Private Gins, and are GUARANTEED pure and right in every respect.

All our Cottonseed are Reginned, Recleaned, Treated with Ceresan, and Sacked in our Trade Mark bags—100 lbs. per bag. MACHINE DE-LINTED SEED can be furnished at a small extra charge if wanted.

These Blue Tag Seed can be certified next year, if you plant them and wish to have them certified for sale as planting seed.

These Seed CERTIFIED by the S. C. Crop Improvement Association and carry THEIR Certified Tag.

PRICE: See Price List

NOTE:

1. All seed treated with Ceresan.
2. Our CERTIFIED Seed are First and Second Year from Breeders. Certified by the S. C. Crop Improvement Association and carry their Tags.
3. Our SELECTED SEED are second year from breeders. They are grown under our supervision and handled by us. We guarantee them as to purity and germination.
4. All prices based on seed 80% or above in germination. If lower test seed are offered—price will be adjusted.
5. Prices subject to change without notice.

A WARNING!

We do not guarantee any Wilt Cotton Seed. Many new wilts are showing up and all Wilt varieties will die some on land heavily infested with nematodes. These Wilt Cottons are as good as can be had.

MACHINE DELINTED SEED

Every year more Farmers recognize the value of **MACHINE DELINTED COTTONSEED**. They plant better. They come up quicker and grow off faster, insuring better stands, and therefore higher yields.

They are **DOUBLE RE-CLEANED** and all light seed are removed.

In the delinting process we take off two lbs. lint per bushel and give 28 lbs. of delinted seed for a bushel, or 93 lbs. of seed for 3 1/3 bushels.

We are prepared to serve these Delinted Seed at a small **EXTRA COST** of 50 cents per bag or \$10.00 per ton, if your order for delinted seed is received in time for us to have this work done. We feel that the extra cleaning these delinted seed get is alone worth the difference in price charged for them.

COTTON SEED

COKER WILDS (Long Staple)

1948 BREEDERS STOCK

CERTIFIED—BLUE TAG SEED

★★ First Year from Breeders

A **LONG LENGTH COTTON**, with **HIGH PRODUCTION** and a higher **MONEY VALUE** per acre than other strains of this variety offered previously.

The **WILDS** variety has proven its adaptability over a wide area and is conceded to be the **BEST UPLAND LONG STAPLE COTTON**, with a spinning quality to its fiber that is outstanding.

CHARACTERS
